

Model:
PN2515Black

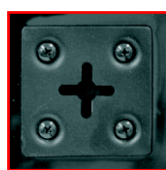

PN-2515

(H) Height	7-1/4"
(W) Width	18-5/8"
(D) Depth	8-1/2"

Gold plated binding posts

Vari-Mount

INTENDED USE

- ✓ Contractors, Custom Installers & Retailers
- ✓ Home Theater & 2-Channel Music Systems
- ✓ Town Homes, Condos, Apartments

OBJECTIVE

The Earthquake PN-2515Black is a universal surround speaker designed to compliment the Platine Noireé system. Not limited to one application, the PN-2515Black can be easily used to create a 2.1, 3.1, 5.1 or even 7.1 system.

In addition to its great flexibility, the PN-2515Black integrates a new oval shaped bell port with aerodynamic lines that increase its sound quality and bass output. Extruded lines improve the way the air flows over the surface of objects. In the case of reflex ports, they offer a significant improvement over typical flare or circle ports by reducing air flow turbulence at each end of the port. As a result, you get less sound degradation and less compression at high sound levels.

Combined with the MiniMe P8/FF8, the PN-2515Black will allow consumers or installers to create several different systems for different applications. Furthermore, integrating these extravagant surround speakers into existing music or theater systems is easier than ever.

SPECIAL FEATURES & HIGHLIGHTS

- Multi-layer Piano Black lacquer finish
- Used for Front/Rear & Center application
- Gold plated binding posts
- 1.5" high definition silk dome tweeters
- Two 5.25" mid-bass woofers
- Low mass AL style cones for speed and accuracy
- Slim esthetic design for all life styles
- Reflex design with new aerodynamic oval bell port for fantastic sound quality and natural sounding bass
- Perfect for Plasma & LCD TV applications
- Vari-mount for vertical or horizontal placement

SPECIFICATIONS
